

# **SALMONIDS IN THE CLASSROOM: SALMON DISSECTION**

## **STEP 12**

### **CLEAN-UP**

Clean the dissection area and all instruments with disinfectant and paper towels.

### **SUMMARY**

You may wish to conclude this dissection by comparing human mammals and salmon. The structural and internal anatomy can be compared, including the muscular, skeletal, respiratory, digestive and reproductive systems. Salmon have many complex biological systems in order to live. Some have similarities to humans and other animals. Some are unique to fish.
