Dinner	\$ 5.00 = \$ _____
TOTAL = \$	_____

Tour Registration

Pre-register for a Sunday guided tour; buses leave at 9 a.m. and will return you to NIC.

Campbell River Estuary

An easy 2 Km ramble along the banks of the River will highlight the importance of the habitat, historical impacts and community driven restoration projects. Lots of bird-watching potential so bring binoculars.

Fish Farm Management - 4.5 hours

Travel north through beautiful Discovery Passage to meet friendly staff who will share their knowledge of salmon care. Limited space.

Quinsam Hatchery

One of the earliest SEP facilities. After over 30 years of service it is getting a major overhaul; you will see both the old and new.

Tyee Pool - 2 hours

A row in the famous Tyee pool by skilled oarsmen who fish it every year. Sit back and enjoy the silence. Learn about this century-old Campbell River tradition.

Quadra Is. Enhancement Soc. - 3.5 hours

Take the ferry to the eco center on Quadra Island. Tour the facility and drought proofing projects on Hyacinthe Creek. Have lunch at Heriot Bay before returning to Campbell River.

Oyster River Hatchery - 3 hours

See the hatchery, spawning and rearing channels, fish ladders, and nature parks maintained year round by ORES. Includes Bear Creek and Oyster River Nature Parks; the Connolly, Arthur Mayse, Rippengale, Raven, #1 and #2 Side Channels; Woodhus Creek Fish Ladder.

Simms Creek Stewardship Society

Walk through the Beaver Lodge Forest Lands to projects intended to offset urban areas. Water Projects include weirs and man-made ponds. See how gravel over-wintered after placement using a stone-slinger.

Register for Sessions

Sessions have limited classroom seating, *register early* to avoid disappointment. Your early registration helps us plan workshops, organize meals, and reduce waste.

Please complete ONE form for each person attending.

For each time slot, mark your first Session choice with a (1) and your alternate Session choice with a (2).

Early Morning Sessions 8:30 - 10:00
